Name 2:	Contribution:	Work assignment:

Each feature must be completed collaboratively by the group. Points for work completed by non-members will be deducted (except provided demo components).

Task 1 - Game Initialization (10 points)	
The game starts correctly	☐
The board is drawn correctly, including the river, nine-palace areas, and initial piece placement	☐
The game state is displayed correctly, with all pieces initially at their starting positions	☐
The game can be restarted without rerunning the program	☐
The current player is displayed correctly	☐
The game runs smoothly	☐
Task 2 - Multi-user Login (15 points)	
Correct login interface and username/password validation	☐
Guest mode requires no login and cannot save games	☐
User registration is supported (duplicate usernames cannot be registered)	☐
After exiting, a registered user can still log in the next time the program runs	☐
Task 3 - Save and Load (15 points)	
Logged-in users can save and load games	☐
A new save can overwrite an earlier save	☐
Save files include piece positions, whose turn it is, and other required state	☐
Corrupted save files are detected; the program reports an error or crashes gracefully	☐
Users can load only their own save files	☐
Task 4 - Game Operation (30 points)	
Players take turns in the correct order	☐
Pieces move only according to legal rules	☐
Capturing, check, player avatars, and related functions are implemented correctly	☐
Capture, check, resignation, and draw states are displayed correctly	☐
The status shows the opponent's previous move and destination	☐
A new game can be started after a game ends	☐
Task 5 - Graphical Interface (10 points)	
The game is displayed in a graphical interface	☐
Users can move pieces by clicking them	☐
No command-line interaction is required during gameplay	☐
The graphical interface displays the game without errors	☐

Advanced Features (Week 15: 30 points; Week 16: 20 points; capped at 100 total points)

Record the implemented features and degree of completion.

Examples: polished interface, complete button set, board background, and other enhancements.

Movement Checks	
Chariot: moves in a straight line without jumping	☐
Horse: moves in an L shape and can be blocked at the leg	☐
Cannon: moves straight; must jump one piece to capture	☐
Advisor: moves one diagonal step within the nine-palace area	☐
Elephant: cannot cross the river and cannot jump a blocked eye	☐
General: one straight step in the palace; the two generals may not face each other	☐
Soldier: one step forward; after crossing the river, may move sideways; never backward	☐
